

# “What If I Could Live ALLERGY FREE ?”

by  
**Dr. Patricia Cohen**

So when it comes to allergies and if you've asked yourself that question, let me pose one possible method to deal with them and let me assure you, if you choose this method ... it will be a decision that you will never regret!

If I tell you that you can be free of allergy symptoms, you might be pessimistic and not believe that this can be true. You might have already been to your internist, your allergist, even an ENT to help you through those days when you can't breathe, your nose is running, your head is pounding with a migraine headache, your throat won't stop itching, your asthma symptoms are off the charts, your psoriasis is worse than ever, you're bloated or can't stop the stomach cramps or IBS. **The list of allergic symptoms is almost endless.** I urge you to take a proactive role and educate yourself on a decision that can positively change your life forever. Or you can ignore this opportunity and ask yourself as you are suffering through your next episode, "what if I had learned more about that laser therapy I read about called (NSRT)"Neurological Stress Reduction Therapy?"

As a doctor, my personal commitment is to help people heal and educate my community on the various modalities available to help them in their quest to achieve optimal health. The latest computerized technology, BioVeda's BAX AURA system, utilizes NSRT to identify and then reduce or eliminate the body's stress reactions to substances and environmental factors. **All allergy symptoms are stress reactions. They are the body's inappropriate response to something in its environment.** This therapy simply takes the best from applied kinesiology, homeopathic remedies, biofeed back and acupuncture, combines them with induction laser therapy and then automates the process to provide a **safe, effective, painless and drug-free solution.** Depending on each patient's needs and history, FDA cleared homeopathic remedies may be recommended to support the effects of the Bax therapy.

With this customized care, patients have been experiencing tremendous outcomes, and report reduction and more commonly, the elimination of symptoms related to allergies and a host of other stress related conditions. So instead of just simply suppressing symptoms temporarily with medication and over the counter drugs, this system addresses the root of the problem.

NSRT provides a novel and unique approach to wellness that is based on proven and accepted science. **We feature the ONLY system with FDA clearances for pain, inflammation and allergy related conditions.** It's safe, fast, effective for adults and children of all ages. And best of all ...no drugs, no needles, no medications!

So the answer to your question, is **YES - you can live ALLERGY FREE.** This state-of-the-art BAX AURA technology is available to help you or someone you love live in harmony with the environment.

## How Does BAX Technology Work?

BioVeda's BAX AURA system and technology is based on the idea that by reducing or eliminating the body's stress reaction to environmental factors using a combination of Meridian and Energy Stress Assessment (MESA), laser therapy, nutritional supplements and homeopathic medications, one will experience symptomatic relief.

Neurological Stress Reduction Therapy is explained as follows:

“Neurological Stress Reduction Therapy” or NSRT provides a novel and unique approach to wellness that is based on proven, accepted science, allowing patients who generally have very few if any treatment options to experience symptomatic relief. Our technology and system are based on these four facts:

1) Stress causes or exacerbates most health related conditions.

“According to The American Medical Association (AMA), stress is the cause of 80 to 85 percent of all human illness and disease. Every week, 95 million Americans suffer some kind of stress-related symptom for which they take medication. “

2) A general reduction of stress levels can significantly decrease symptoms of many conditions.

3) The brain creates associations between stressful events and substances which are often times inappropriate and subsequently lead to a host of chronic and acute conditions.

As an example, “Allergies are abnormal or inappropriate reactions of the nervous system that occur in response to otherwise harmless substances.” – Alternative Medicine Encyclopedia

4) If these associations can be broken, by introducing a positive stimulus in conjunction with the specific stress inducing substance... symptoms can be reduced or eliminated.”

In order to break these stress-inducing associations, the BAX AURA exposes the patient to digitized frequencies that mimic the frequencies of substances in the real world. The frequencies are achieved through the use of a cold laser, thus utilizing low level light therapy (LLLT) to stimulate the autonomic nervous system. A low level light is passed over the body's acupuncture points and biofeedback is registered through the device and its software to determine which substances cause the body stress. If a substance causes a stress reaction in the patient, then a protocol is used that simultaneously calms the autonomic nervous system while the patient is exposed to the frequency of the stress-inducing substance. This exposure coupled with dietary supplementation and homeopathic remedies works by retraining the body to have a positive or neutral response to the stressful substance rather than a negative one. The BAX AURA Neurological Stress Reduction Therapy is safe for all ages, fast, painless and requires no medications.

For more information on how this state-of-the-art BAX AURA technology can help you or someone you love decrease stress reactions and alleviate stress induced symptoms like allergies, asthma, wheezing, food sensitivities, psoriasis, eczema, skin rashes, gas, bloating, diarrhea, itching, hives, sinus pressure, migraines, ADHD, and chemical sensitivities, please call A Wellness Center by Dr. Patricia Cohen at 770-966-8000
